2. The Party will install 63 KVA, (BEE star rated) 11/0.4 KV D.P mounted Copper wound Sub-station along with suitable protective devices Viz-AB Switch, HG Fuse, Lightning Arrestor mounted on a D.P Structure as per provision in the relevant I.E Rule. The proposed Sub-station should be installed near the main gate inside the boundary wall of the unit for easy installation and approach of metering unit. The Transformer to be installed should have LT bushing cover. As power supply will not be extended by TPWODL without bushing cover. The Sub-station should have proper barbed wire fencing with double leaf MS Gate and metal spreading as per sub-station specification.
4. The offerer will tap from 63 KV feeder and draw 0.4 K.M. 3 Ph. 3 Wr. 11 KV OH line with 55mm² AAA Conductor and erection of 1 No. Line DP with AB Switch at his own cost as per provision in the relevant I.E Rule through a licensed electrical contractor. Consumer will arrange right of way for erection of proposed 11 KV line. The same shall be handed over to TPWODL after effecting power supply to the point. A plan showing S/S & line is to be approved before execution of work.
5. The Offerer is to be ensured that no over head line of TPWODL is passing though the premises. In case any existing line is there, it is to be shifted to outside the premises of the Party, before supplying load, the cost of which is to be borne by the applicant.
6. From the transformer up-to the meter, LT cable of suitable capacity is to be provided and one LTCT meter will be installed in a suitable TPWODL approved TP box. The cost of which shall be deposited under deposit work norms before execution of the agreement.
7. The Transformer must be inspected and tested at the Offerer cost by the TPWODL personal.
8. **The Offerer will submit inspection report and other report and material purchase bill invoice copies and guaranty certificate to Samaleswari Milk Union. Only after submission of this report liaising charges shall be released to the Party.**
9. From the transformer, suitable capacity cable is to be provided up to the meter. To record the consumption one LT CT meter of appropriate capacity shall be installed near the sub-station in the TPWODL approved TP box. The cost of which shall be deposited with the Executive Engineer, B.W.E.D, Bargarh, under deposit work norm before execution of agreement.
All rules, regulations, norms & conditions of TPWODL as approved by OERC Distribution (Condition of Supply) Code 2004 should be fulfilled before effecting power supply by the offerer.
10. Interested Contractor/Manufacturer/Supplier/Distributor may quote their rate indicating price, Tax., Terms of Rate, Guarantee etc to the above address. **The detail technical specification, features of the Goods should be clearly mentioned in the quotation.** Boucher/Leaflet of the goods be attached with the quotation.
11. The Party should attached his Past experience, if any.
